

We survey attendees at each of the events for their thoughts on our special industry meetings. We are pleased to hear Benefits and Pensions Monitor is providing good thought-leadership for our readers. We'd like to thank our delegates for their praises. Some of their comments are listed below.

Thanks for organizing this event (ESG). I thought it was very worthwhile for us to come in from London (Ontario).

Personally, I much appreciated speaker Michael Long, as his speech was not just interesting but highly informative.

Overall the presenters did an excellent job on all subjects.

I found Michael Long's presentation on FSCO requirements and expectations most relevant.

So glad I got a seat before you were sold-out! It was VERY educational. Thanks.

Michael Long and Jordan Berger were excellent.

Would like to know more about sponsorship opportunities for a future event on this topic.

The event was well done. Thank you for organizing.

I thought this event was really well organized and promoted.

I really appreciate the opportunity to come see these events!

Content was very interesting and well presented. Moderated questions at the end brought all presentations/topics together nicely.

Well run event. Thank you.

I consider Joe Hornyak to be an excellent moderator. He had very good thoughtful questions which indicated he is very well informed on the industry.

I enjoyed the session and especially the moderator. He did a good job of guiding the event and asked compelling questions.

The session was useful for me. While I am quite familiar with the current mortality research, I gained some additional perspectives.

Each of the sessions were well presented.

The speakers were articulate and well prepared. Their materials were well put together. Overall it was very professional.

Good content, good environment.

Overall it was a very good event and well run. Craig Alexander was excellent - clear, engaging and he had information relevant to the audience.

I truly enjoyed Craig Alexander's comments and insights. He was an excellent panelist!

I am very pleased I attended this event.

I encourage Benefits and Pensions Monitor to continue organizing similar meetings.

I found the presentations to be better balanced compared to what we are used to hearing at similar events.

Thank you for putting this event together!

The networking was a good complement with time before and after the session. Thanks so much for holding this event.
